

## ANNUAL GENERAL MEETING 2023

On November 23, the Novatio Foundation held its second annual general meeting. The meeting, attended by over 30 people, began with a talk by Father Michel Lacroix on the history of the involvement of the diocese, parishes, and religious communities in social causes, contributing to the creation and development of many community organizations in the region. His talk was much appreciated by the audience. Father Michel Lacroix invited the Foundation to continue this historic commitment by showing solidarity with the community.

The AGM was also an opportunity to present the Foundation's annual report, including funded projects, financial statements, and budget forecasts. In his annual report, Richard Rochefort, Chairman of the Board, wrote: *"...the Foundation is our shared way of making a tangible difference in our community. It serves as a platform to heed the calls for help in our communities and translate the Word of the Lord, heard at mass every week, into meaningful action."*
