

Hello everyone,

I hope you're all well!

As a proud Quebecer passionate about the fruit and vegetable industry, I would like to submit my candidacy for the director's position on the QPMA board.

I wanted to take a moment to tell you about something very close to my heart. I come from a family with deep roots in this industry, and my attachment and enthusiasm for what we do is truly a family affair. I grew up seeing the ups and downs of our business, and this experience from a very young age has given me a deep understanding of our industry and a passion for its development and success.

Having spent my life working in this sector, mainly as a wholesaler, and also in retail, I feel the need to give something back. I've always been committed to promoting healthy, quality food, and my experience has taught me the importance of supporting initiatives that promote the common good. That's one of the reasons why I've decided to embark on this wonderful adventure.

I sincerely believe that I can bring something special to the association through my expertise, network of contacts, and commitment to the QPMA's values. I'm determined to be involved actively in the various committees, sharing new ideas to promote our products. I'm ready to invest the necessary time and energy to be a support and a positive influence.

I sincerely hope you will consider my candidacy. Your support would mean a lot to me.

Sincerely,

Nick Pitsikoulis
